DAIL CALLED TO MEET FOLLOWING COLLINS MURDER

Session Probably Will Be Held In Dublin Saturday; Assassination of Irish Free State Leader Calls Forth Expressions of Regret.

Dublin, Aug. 23.—It was announced this morning that in view of the assassination of Michael Collins, the Dail Eireann will be summoned immediately, probably meeting on Saturday of the present week.

Dublin, Aug. 23.—A national funeral with full military honors will be accorded to the late Michael Collins, head of the Irish Free State Provisional Government and of the Free State army, who was killed from ambush near Bandon, County Cork, last night, it was stated this afternoon. His body will lie in state prior to interment in the Glasnevin Cemetery, where the body of Arthur Griffith was buried a few days ago.

IRISH INSURGENTS HAD CASUALTIES

Armored Car Operated During Attack Which Killed M. Collins

Cork, Aug. 23.—"Forgive them," these were the last words of Michael Collins, commander of the Free State army, as he lay dying from the assassin's bullet last night. The body was addressed to Major-General Dalton.

The assassination took place between Macroom and Bandon, about twenty miles from this city. Collins was accompanied by members of the Free State headquarters staff, who were visiting various military posts most of them in their comments on the south of Ireland. Largely his death pointed to dire forebodings of Republican irregularities for Ireland's future.

The body was brought to Cork this morning and transferred to a steamer for conveyance to Dublin.

Several Killed.

London, Aug. 23.—An Evening News dispatch from Dublin to-day says it is believed Michael Collins was accompanied by seven Free State staff officers, including Major-General Dalton, when the Free State chief was killed from ambush last night at Bandon. Several soldiers, the dispatch says, are believed to have been killed or wounded during the attack on the Collins party.

A Central News dispatch from Dublin says it is reported that Major-General Dalton himself was slightly injured during the fighting in which Collins was killed.

ULSTERITES REGRET KILLING OF COLLINS

Belfast, Aug. 23.—All Ulster has been profoundly stirred by the news of the assassination of Michael Collins. The Free State commander-in-chief was looked upon here as a man of forceful personality, than Arthur Griffith, and many declare he had a far greater hold on the people, including those who fully appreciated Griffith's cleverness.

The tragedy occurred on the anniversary of the murder in 1920 at Lisburn of District Inspector Swansey, which was followed by the fiercest riots in the history of Belfast and the burning of 300 houses.

Loss Mourned.

The Irish News says the murder will cause profound consternation among the Irish people, to whom Collins had endeared himself by his sterling qualities of heart and mind, and who looked upon him as their chief maintainer in the field as well as in the council chamber against the "evil conspiracy to which he has now fallen a victim. Ireland will mourn the loss of a devoted son and gallant leader and regret that the calamity may bring the less desperate of those who opposed his policy to a sober realization of the terrible nature of the course into which they have been seduced."

A Heavy Blow.

The Evening Telegraph says: "The blow to the Irish Free State is almost irreparable, especially as Collins and Griffith stood solidly for the treaty, and they leave no outstanding figure behind them. Ulster will sympathize with the Free State in its trials and tragedies which are directly due to Irishmen themselves. They have rightly or wrongly been given a great charge by the British Government, and in spite of the disappointments and discouragements of recent months."

DEATH SENTENCE PASSED ON BRITISH WOMAN COMMUTED

London, Aug. 23.—Home Secretary Shortt has commuted the death sentence passed on a young woman, the wife of a farm laborer, who was convicted jointly with her husband for the murder of a four-year-old boy. The motive of the crime was robbery and the murderers obtained only £15.

The action of the Home Secretary is attributed to the growing sentiment against the execution of females. It is thirteen years since a woman was executed in England.

FUR BOOTLEGGING TO GET "KNOCKOUT"

Jackson Goes to Winnipeg Game Conservation Meet

Western Provinces to Cooperate to End Outlaw Dealings

Bootlegging in beaver and other costly furs in British Columbia and Western Canada is to become an extinct industry, said M. B. Jackson, chairman of the B.C. Game Conservation board, just before he left for Winnipeg to-day to represent this province at the meeting there next Monday of the game heads of the four Western Provinces.

Common problems in handling game conservation work will be discussed and arrangements for co-operative action made to exercise all-Canada scalping between provinces and outlaw-trade by individuals, Mr. Jackson explained.

As head of the game work in British Columbia, Mr. Jackson will further plans on this trip to set fox farming on a commercial scale started in British Columbia and also to discuss Government experimental fox farms established to encourage the industry and point the way to success for individuals.

Study of the situation here reveals the possibilities of fox farming in British Columbia. Mr. Jackson said, fox farming is now the first industry in Prince Edward Island, and its yearly value has already passed agriculture. Climatic and other conditions here give us the advantage over Prince Edward Island for fox farming.

Mr. Jackson is also taking up proposals for the establishment of mink, marten, muskrat and possibly beaver farms because of the big possibilities there are in the fur industry. At the provincial capitals at Edmonton, Regina and Winnipeg, Mr. Jackson will also take up the question of library extension service in his capacity of Provincial Library Commissioner.

DELORME CASE BACK IN COURT

Another Set of Alienists May Examine Man

Montreal, Aug. 23.—The whole question of Adelard Delorme's mental condition will be opened in the Superior Court on August 30, a continuation of hearings on interdiction proceedings instituted by the Delorme family counsel following a report made by Dr. D. Brochu, Medical Superintendent of St. Michael's Asylum, a Beaupre, where Delorme is interned, that his patient is sane enough to administer his own affairs.

Dr. Brochu will be called to give evidence supporting his report. It is considered likely that the crown and state alienists whose evidence in the Delorme criminal trial led the jury to pronounce him insane, will stand trial on the charge of murdering his half-brother, Raoul, when he was in the custody of the Delorme family.

The upshot of the whole affair may be that the Government of Quebec may order a mental examination of Delorme by a third set of expert alienists to decide once and for all whether he is in no condition to face the murder charge or whether he is sane and should be transferred from the asylum to Bordeaux Jail once more to appear in the Court of King's Bench on the merits of the cause celebre.

Berlin, Aug. 23.—An outbreak of pogroms in Katowitz is reported in a special dispatch from Beuthen. Crowds have looted the food shops conducted by Jews and are beating Jews wherever encountered in the streets.

THIEVES VISITED HOME AT SIDNEY

Times Correspondence.

Sidney, Aug. 23.—Thieves broke into the home of A. O. Wheeler, Director of the Alpine Club of Canada, here last night or at an early hour this morning and carried away a large amount of property. The loss has been heavy, but it is impossible to enumerate the articles until Mrs. Wheeler's sister, Mrs. Everill, of Victoria, arrives, as Mr. and Mrs. Wheeler are at Banff.

The police have the case in hand and are following every line of investigation which promises to lead to apprehension of the criminals.

CANADIAN LABOR CONGRESS WOULD BAR ORIENTALS

Immigration Proposals Outlined at Montreal

Advisory Council of Immigration Suggested

Montreal, Aug. 23.—(Canadian Press)—Total exclusion of Oriental immigration to Canada was endorsed by the Dominion Trades and Labor Congress this morning in the formulation of its immigration policy.

The broad view of organized labor as outlined in the report of the immigration committee "is effective supervision and regulation, so as to prevent in industrial centers. Monetary provisions and head tax are held to be futile, particularly the deportation of aliens found guilty under the act, is viewed as an effective measure to lessen the peril."

Repeal of Bill No. 30 and amendments to Bill 52 (1919) to restore the right of British citizens now liable to arbitrary deportation is also urged.

CHINESE ASKED TO LEAVE TOKIO

Thirty Suspected of Having Instigated Crime

Attitude of Police Embarrasses Government

Tokio, Aug. 23.—The Government is obviously embarrassed by the policy of the police towards Chinese laborers, concerning which the Chinese Consul at Yokohama, in the absence of the Chinese Minister to Japan, inquired officially.

The Consul was assured that not more than thirty Chinese in Tokio had been advised to leave the country because of being suspected of having instigated crime. Investigations are proceeding regarding other Chinese laborers in Japan.

The Chinese Consul asked for a definite statement as to the rights of Chinese peddlers and laborers, some of whom, it is alleged, have been refused permission to reside in Japan. Japanese merchants fear the policy will cause a renewal of the boycott on Japanese merchandise.

Peking, Aug. 23.—The Republican Cabinet announced to-day that President Li Yuan Hung is willing to resign in favor of Sun Yat Sen, deposed head of the South China Government, provided Parliament approves such action.

It was declared that if Chang and Wu agreed to harmonize, Sun would be disposed to proceed to Peking.

GOVERNOR-GENERAL DISPLAYS INTEREST IN MANY SUBJECTS

Former Leader of Canadian Corps Plants Tree In Memory of Men Who Served Overseas; Red Cross Workshops Inspected By His Excellency.

His Excellency Lord Byng opened his official appearance on the third day of his stay in this city to-day by a visit to the Red Cross workshops, where he took a keen interest in the achievements of the war disabled veterans. At 11:45 the former leader of the Canadian Corps planted a tree on Memorial Avenue in memory of war-heroes.

He lunched with the officers of the garrison at Work Point Barracks at one o'clock.

This afternoon Lord Byng, as Chief Scout, inspected Scouts assembled at Government House grounds.

Lady Byng was entertained to-day at a luncheon given by Mrs. Curtiss Sampson, regent of Municipal Chapter, I. O. D. E., at "Molton Coombe," at which the executive committee and regents of the primary chapters were present.

Visits Hospitals.

His Excellency visited the returned soldiers under treatment at the hospitals of the city this morning, and although his time was very brief, he showed great interest in their military and subsequent civilian careers.

At the Red Cross Workshops he was received by W. L. Morkill, honorary supervisor; F. W. Jones, M. C., was present and witnessed the ceremony which was an impressive one. The men were individually introduced to Lord Byng by C. W. Cashmore, the foreman, and His Excellency showed great interest in the men, and asked many questions.

From the hands of Sergt. York, a former settler in the Peace River District, who has taught himself weaving, Lord Byng accepted for Lady Byng a woven scarf.

Time did not permit him to give great attention to the exhibits of the men's work.

A representative body of officers and civic officials attended the planting of another tree on the Memorial Avenue to-day.

General E. B. Clark, who is chairman of the Memorial Committee of the Chamber of Commerce arranged the ceremony, while Col. Cy Peck, M. C., was present and witnessed the ceremony which was an impressive one. The plan of the archway, which is to be erected at the Cordova Bay end of the Memorial Avenue, will represent some historical archway in France or Belgium, was presented to Baron Byng, who approved of the plan, and was designed by local architects. Captain Jolliffe, A. D. C., attended on Baron Byng while at the ceremony and following the planting of the tree he shook hands with those present.

T. R. Purdy, the City Parks Superintendent, arranged the planting of the tree, and explained to His Excellency that the plan tree which was planted was the best of its kind, and suitable for Victoria's climate.

It is placed close to that planted by Marshal Joffre. Mayor Marchant attended as representative of the city of Victoria and several district councillors were represented. Col. F. A. Robertson was also among those present.

CHIEF SCOUT REVIEWS SCOUTS AND WOLF CUBS THIS AFTERNOON

INTEREST DROPS AT CONVENTION

B. C. Conservatives Endorsed Bowser as Leader

Vancouver, Aug. 23.—Appointment of a party leader and adoption of association name were evidently the chief attractions of the British Columbia Liberal-Conservative Association convention. These matters having been disposed of at Tuesday's sessions at the Hotel Vancouver, the attention of many delegates turned more to sightseeing tickets than convention badges to-day. This morning's attendance was markedly lower than any since the conference opened Monday morning.

Election of Officers.

Election of officers of the B. C. Liberal-Conservative Association, declaration of a platform and the passage of a pile of resolutions comprised the remaining business. It is confidently expected that these matters will be concluded to-day and the convention declared at an end before tonight.

William Manson, Brig.-Gen. J. A. Clark, M.P., Major Lyons, O. H. Nelson, ex-Mayor McHardy of Nelson, C. D. Peel and Mrs. Bume were appointed a nominating committee this morning and at once proceeded with the necessary formalities for the election of officers.

Entertained.

Immediately following the morning session women delegates to the convention were entertained at luncheon by Mrs. W. J. Bowser, who caused the general invitation to be announced by the convention secretary. This afternoon also the women delegates are being entertained by local women delegates at a tea in the Rose Du Barry room of the hotel.

Mrs. Skinner Spoke.

The first duty to-day of ex-Mayor McHardy, who was chairman pro tem, was to introduce Mrs. Genevieve Lipsitt Skinner, of Winnipeg.

FIND DOLES NOT PERMANENT CURE

British Ministers Wish Unemployment Relieved by Trade Improvement

London, Aug. 23.—(Canadian Press Cable).—The Government and the municipalities, between them, have directly found £20,000,000 for relief work. Rt. Hon. T. J. McNamara, Minister of Labor, told a deputation of laborites who reiterated the accusation that the Department lacked practical sympathy toward unemployment. The sum is in addition to the relief accruing from the unemployment insurance. The Minister also pointed out that credits totalling £16,250,000 had been sanctioned to relieve unemployment. The Birmingham unemployed men who "hiked" to London and appealed to the Minister of Labor declare they are much dissatisfied with their interview and now proposed to interview the Premier. Mr. Lloyd George is resting at his beloved Ciccieth, although incidentally he seems to be suffering willingly from the attention of press photographers. It seems unlikely that he will return to London to see hikers.

Full Duty Done. The present attitude of the ministry is that it has done all that can be expected in the way of direct monetary relief for unemployment, and agrees with many critics that giving doles or creating work artificially makes no real cure.

Signs continue to indicate that trade is very slowly becoming healthier. The unemployment figure has fallen from 23.1 last June to 14.6.

The volume of exports in some classes of woolen and worsted goods is not far short of the figures of 1913.

The bad state of the shipbuilding industry is notorious. Employers have approached the unions with a proposal to withdraw the remaining 19 shillings of the 22.5 shillings weekly war bonus, with probably some concessions to unskilled workers.

MOUNTAIN SCENERY IMPRESSED COOLIDGE

Vice-President of U.S. Travels Across Canada

Calgary, Aug. 23.—While Calvin Coolidge, vice-president of the United States, was not inclined to talk about trade relations, tariffs or anything of that nature when he arrived here on the Trans-Canada train of the Canadian Pacific Railway yesterday afternoon, owing to his visit being of an unofficial nature, he waxed most eloquent in his praises of Banff and Lake Louise and of the Canadian Rockies along the route by which he had travelled. "No wonder you Canadians are proud of your mountains," he asserted, in the course of an interview. "The Vice-President, who is on his way from attending the annual convention of the American Bar Association at St. Francisco, accompanied by his wife and two sons, only remained here while the train changed engines. He was met at the station by S. C. Reat, local United States consul, and some time in conversation with J. M. Cameron, general superintendent of the Alberta Division of the C.P.R. Mrs. L. Stoff, president of the American Women's Club, presented Mrs. Coolidge with a bouquet of flowers.

TO MAKE FARMERS' TASK EASIER

Saskatchewan Premier Suggests All Banks' Creditors Reduce Indebtedness

Regina, Aug. 23.—A concrete suggestion outlining the method which might be adopted by the banks to assist the prairie farmers to market their grain in such a manner as to prevent the glutting of the wheat market and a consequent deprecatory in prices has been telegraphed to the Prime Minister at Ottawa by Premier Charles A. Dunning. "Pointing out that the banks stand at the base of the pyramid of credit," Mr. Dunning suggests that "if they could devise means of extending portions of amounts due them from all creditors to enable more gradual liquidation," he feels that the effect would be felt through all classes of creditors down to the farmers and probably prevent slaughter of wheat prices.

Mr. Dunning points out that merchants as well as farmers stand creditors to the banks in considerable sums of money and his proposal involves a gradual liquidation of their bank indebtedness by all creditors, thus eliminating the necessity for farmers for cash payments early in the Fall.

CHINA ASKS NO FOREIGN LOAN

Commission Gives Advice As to New Financial Policy

Way Must Be Found to Meet Obligations

Peking, Aug. 23.—Despite the financial crisis which confronts the Peking Government, China at present does not contemplate seeking more foreign loans, according to Dr. Wellington Koo, chairman of a commission appointed to propose a new financial policy.

"As a majority of the previous foreign loans have been misappropriated by leaders for their own political purposes, I agree with my countrymen that there should be no

fresh foreign loans for the present," said Dr. Koo.

The chief reason for the present bankrupt condition is the absence of any fundamental policy in connection with finances and taxes. Owing to political instability the payment of both capital and interest to foreign and domestic lenders has been in default. For the protection of China's credit in foreign countries, no time should be lost to find out ways to pay these accounts in the future.

Maybe that hill is not there, after all—

VERY often the hill we seem to be climbing, after the middle years, is made out of the common mistakes of diet which starve tissues and nerves and slow down energies with faulty nutrition and stored up food poisons. How smooth and level the path seemed to be when we were young. Simple, natural food may level that hill to a smooth path again.

Suppose you try it! Begin today with a dish of Grape-Nuts with cream or milk (fresh or preserved fruit, too, if you like) for breakfast or lunch. Keep up this crisp, delicious, strengthening food in place of heavy, ill-assorted, starchy breakfasts and lunches—and see if the old-time zest and speed on the old-time level path doesn't come back again.

Holders of maturing fully registered bonds, interest payable by cheque from Ottawa, will receive their December 1 interest cheque as usual. Holders of coupon bonds will detach and retain the last unmatured coupon before surrendering the bond itself for conversion purposes.

The surrendered bonds will be forwarded by banks to the Minister of Finance at Ottawa, where they will be exchanged for bonds of the new issue, in fully registered, or coupon registered or coupon bearer form carrying interest payable 1st May and 1st November of each year of the duration of the loan, the first interest payment accruing and payable 1st May, 1923. Bonds of the new issue will be sent to the banks for delivery immediately after the receipt of the surrendered bonds.

The bonds of the maturing issue which are not converted under this proposal will be paid off in cash on the 1st December, 1922.

MR. MICHAEL COLLINS.

When the Grim Reaper removed Mr. Arthur Griffith the well-wishers of Ireland had reason to speculate upon the turn which the absence of his wise counsels would give to Irish events. They found some consolation in the fact that Mr. Michael Collins, his closest political companion and most stalwart supporter, still remained to complete the work upon which both their hopes for Ireland were centred. But the rebel's bullet has accounted for Mr. Collins and Ireland has lost another noble son whose chief concern was the best interest of his native land.

Conditions in Erin's Isle appeared to become less complex as the National troops succeeded in their conflict with the rebel elements. The dead commander-in-chief recently announced his belief that the forces of law and order would be in complete control within a very short space of time. He almost implied that his foes would see reason and make some sort of compromise that might be converted into something approaching an understanding. Almost as soon as this more optimistic view reached the outside world the followers of de Valera made it plain that open warfare would be followed by tactics that have now resulted in this latest stab in the back.

The death of Mr. Collins will shock the whole world and cause the average supporter of the Free State Government in Ireland to speculate upon what is coming next. Were the two dead leaders of the greater moderate element men less prominent in latter day Irish evolution, less necessary in future governmental development in the land for whose welfare they gave their lives, the gap which their passing leaves might be contemplated with equal serenity but with less political concern. So few members of the Dail Eireann who are determined to observe the provisions of the Anglo-Irish Treaty have the experience and training which a continuance of the work carried on by the late leaders obviously demands. It can only be said that the need of the hour usually produces the man. That it will do so in Ireland's case will be the hope of all who wish her well.

What has been said about the late President of the Dail may be repeated in reference to the late commander-in-chief. The part which Mr. Collins took in the Downing Street deliberations marked him as a man of keen intellect, possessed of a deep sense of his duty to the country which gave him birth, and ready to accept the reasonable end of a lost cause. From the moment he appended his signature to the famous Treaty he has not wavered. His pause and compact with de Valera were a demonstration of his vision and a desire to play the game with his former colleagues. He was sold; his death is on the head of the man who leads the country's enemies.

MR. BOWSER TRIUMPHS.

Mr. Bowser is still the Leader of the "Conservative" forces in British Columbia, the Party having concluded that its fortunes were safer in his hands than in those of Mr. Stevens. This is not to say that Mr. Bowser's leadership was wholeheartedly approved but rather that the Party prefers to suffer "the ills it has than to fly to others that it knows not of." The Government, we assume, will not worry over the decision. Its members know from experience that Mr. Bowser's procedure in debate seldom wanders from a discussion of trivialities. It is true that the Opposition Leader's contributions to the address in reply to the Speech from the Throne often bear witness to the burning of a good deal of midnight oil be-

cause of the pains that he finds it necessary to exert to endow his statements with a nodding acquaintance with serious issues. On that account Mr. Bowser cannot be accused of a lack of industry and aggressiveness.

All these various Party considerations notwithstanding, Mr. Bowser's confirmation in office in the face of opposition, and absence of any hope of return to power, is a personal triumph that should be of considerable consolation to himself. That section of the Conservative Party in British Columbia which had cherished the hope of being led back to the fleshpots long ere this will probably remain sulky and pile up obstacles in Mr. Bowser's hopeless path. But the majority of Conservatives in this Province will continue to recognize the fighting qualities of their leader, even while they may deplore his indiscretions. His opponents will similarly regard him as a worthy foe and will be sportsmanlike enough to felicitate him upon his success in Vancouver yesterday. We differ with most of Mr. Bowser's policies and methods; but we recognize in him a fund of energy and devotion to a lost cause.

YOUNG CANADA.

Plain home truths were by no means lacking in Baron Byng's address to the Canadian and Kiwanis Clubs at their joint luncheon yesterday. His message to the assembled membership—as a fellow member of the Canadian Club and a Kiwanian—concerned the youth of Canada and its future. He urged the cultivation of the highest principles of citizenship in the young men and young women whose task it will be to develop their marvellous heritage and make it pay its full complement of varied dividends.

His Excellency recognizes the great opportunity which is spread out before young Canada. He is right in charging the great bodies which have come into existence to satisfy the demands of progressive times with their dual responsibility—responsibility to the coming generation and responsibility to country. His familiarity with the ideals of these institutions makes it easier for the Governor-General to talk intimately. If statesmen and politicians practised them the world would be a much better place.

SWORD RATTLES AGAIN.

When the Genoa Conference was in progress Premier Poincare delivered a speech at Barle due in which he made it plain that if Germany did not meet her obligations he would apply force. Such a definite pronouncement at such an inopportune time sent an unpleasant thrill through the gathering. But the thing blew over and the virtual promise of marching armies has not materialized. None the less two conferences have taken place since then and the four principal Allies are no nearer a solution of Germany's case than they were three months ago.

Premier Poincare has delivered another speech, two speeches, one at Thiancourt and the other at Barle due. He now says that "France knows how to make Germany pay for the destruction she caused during the war." Unfortunately for all concerned the French Premier does not let anybody in on the secret which he alone seems to possess. Days and weeks of deliberation failed to produce a solution. The best political and economic brains of four countries have been baffled—and it will have to be said that all the participants in the recent conference are agreed that Germany should and must pay for her crime. But they continue to ask how. They will at least agree that the delivery of provocative speeches will hinder rather than help matters.

It is interesting to observe at this stage of the controversy that Germany offered the Allies \$12,500,000,000 at the London Conference a little more than fifteen months ago. To be wise after the event is to suggest that if this offer had been accepted Europe might have been in a very different condition to-day. The proposal was rejected and it appeared to be perfectly reasonable that it should be rejected. But a reference to the subject adds emphasis to the suggestion that unless some terms are made that are considered possible for Germany to

meet the Allies will be extremely lucky if they get the amount that looked so ridiculously inadequate last year. The Westminster Gazette observes, "we are educating ourselves very expensively."

NOTE AND COMMENT

Quite a number of great soldiers have confessed an utter inability to deliver a speech that is not to be found between the covers of K. R. and R. Canada's Governor-General can take a place in the front row of professional orators.

By the way, that vote at the Conservative Convention yesterday must have been something in the nature of a shock for the noisy member for Vancouver Centre. And poor Mr. Howe seems to have been more of an "also-ran" than was anticipated, in spite of what was regarded as the entrance of the "bigger fry."

Belgium is poorly served when her customs officials can hold up M. Teltcherin and a number of his colleagues at the frontier because their passports to London had not been visited at Cologne. After all the Soviet representatives were only going to pass through Belgium on their way to the other side of the English Channel. Nobody would go out of his way to rub shoulders with any of the Moscow crowd; but sooner or later its Government will have to be recognized. Why worry over silly and harmless details in the meantime?

DAYLIGHT WASTING.

To the Editor:—It is to be hoped that the City Fathers have read and will act upon the moving and timely appeal of "Mother" in your Saturday's issue asking them, out of consideration for mothers and children, to follow the recent example of the Montreal City Council and likewise change their plans and bring daylight saving to an end at the close of this month. Reasonable people now see clearly that this scheme of daylight saving has been carried to extreme and undue length, and a re-action has set in. "Mother" has made her point so clear that it is superfluous to add to them, and any one can see for himself that on the cold and dark mornings that have already come upon us the so-called daylight saving is really daylight wasting as well as fuel wasting, for warmth. The big and busy neighboring cities of the South get on better than we do without any daylight saving contrivance and if it is to be continued at all, it ought clearly to be restricted to July and August.

NEW TAX PLANS TO BE ATTACKED

Alberta cities are imposing it. In one sense it is an interference with trade and commerce and as such would seem to be a Federal matter. The proposal that a super-tax be levied on heavy trucks and motor cars, might have the effect of locating such vehicles just outside the city in municipalities where such a tax is not imposed.

Income Tax Just.

"In regard to the income tax the justice of the claims of the municipalities to receive some share of the provincial income levy should be recognized; or an additional income tax should be imposed on carry on municipal work. But the whole levy should be collected by one authority one set of machinery, and divided on a pro rata basis."

The proposed business tax on rental values is of an inflexible character. It is quite impossible to impose a business tax upon any establishment that has any relation either to the profits, trade or the value of the buildings occupied or the size of lot involved in business with any appearance of justice.

Must Cut Costs.

"In a broader sense the Committee's report, I feel, commits a common error which also is committed in Dr. Shortt's report—it deals only with one side of the ledger as it were. It proposes new sources of revenue but does not suggest ways and means of cutting down expenditures and so making these new revenues, these new burdens, unnecessary. It is not enough to suggest new sources of revenue, but even more valuable is the finding of economies which will ease burdens."

Curb Extravagance.

"For the reason there should be some method of curbing extravagance and preventing in the future the lavish and often unjustified expenditures of the past. My proposal is that a Local Government Board be appointed to have authority to conduct open enquiries into all proposed borrowings of any kind whatever, whether local improvement schemes or otherwise, whether through acts of the Legislature or through city by-laws. In fact, no borrowing of any kind would be permitted without the holding of a public, open enquiry into the merits of the loan, its length, the rate of interest, and all other circumstances surrounding it."

Inter-Municipal Spending.

"Another matter which must be considered in the general discussion of tax problems is the relative of expenditures made by the School Board, the Police Commission and the Library Commission, expenditures for the relief of the poor, for the relief of unemployment, and the relationships between the adjoining municipalities in connection with sewers, light and education. These relationships should be fully investigated."

"Positively Mischievous."

"I fail to detect any fundamental or guiding principles in the tax recommendations of Alderman Todd's committee, and in my opinion some of the suggestions are positively mischievous," said Alderman Woodward in his statement. "I take particular exception to—

"1. The proposed business tax based on rental value of space occupied."

"2. The proposed amusement tax."

"3. The proposed horse tax."

"The tendency of the first mentioned must inevitably be to increase the hazards of doing business in the City of Victoria, to decrease the volume of employment and to increase the cost of commodities to the consuming public. Rental value paid bears no relation whatever to the profits earned. A well devised income tax is the only efficient instrument for securing from each corporation and citizen a just contribution to the excess cost of civic administration. Any tax which penalizes enterprise and stimulates business should be offered strenuous opposition."

Amusement Tax Opposed.

"Similar objections can be offered to the two other taxes above mentioned. Those engaged in commercial amusements in the City of Victoria are already facing problems of the greatest magnitude and further hindrances to business cannot fail to be seriously detrimental. If the proposed tax is to be paid by patrons it will tend to decrease the volume of business. If it is to be paid by the men engaged in the business, irrespective of their financial ability—it will lead to the adoption of unwise economies such as reduced staffs and smaller payrolls. As for taxing a man because he uses a horse, in his efforts to secure a livelihood I regard the proposal as too fantastic for further consideration."

Fundamental Principles.

"All taxpayers should conform to the following fundamental principles:

"1. That each citizen should contribute according to special privileges enjoyed, the value of such privileges being automatically measured by land values."

"2. That each citizen should contribute according to his ability, such ability being measured by his income and the relation which same bears to the number of his dependents."

Two Taxes Only.

"In place of the devious, dubious and mischievous impositions suggested by Alderman Todd's committee I would make the following proposals:

"1. That sole reliance be placed in a land tax and an income tax."

"2. That the income tax be steeply

"3. No citizen will be hampered in his efforts to earn a livelihood, and no promising enterprise will be throttled."

"There will be no penalty upon improvements, no barriers to employment, no incentive to avoid the responsibilities of home-owning."

"The above proposals are offered in the belief that they have come much nearer to meeting the needs of the present situation than any that have as far received publicity."

Todd Replies to Attack.

Alderman Todd, chief sponsor of the new tax proposals, to-day defended himself against the charges that his suggestions contained no method of checking city expenditures and that they offered no guarantee that new revenues would not encourage the city administration to be extravagant.

"There is no guarantee in our proposals that all the new revenue would

Brandon, for the accused Earl Johnson.

"You would do better to take it

wool out of your ears," declared Mr.

Moresby to his learned friend.

"I have no more wool in my ears

than you have wax in yours," was

the hot retort.

"Gentlemen," remarked the court,

"personalities will not get you any-

where."

The trial then proceeded. The

charge and counter charge arose out

of a scuffle for position on a jitre-

stand at the corner of Yates and

Douglas Streets, when the two cars

collided.

The accused, Earl Johnson, was

fined \$15, and the charge against

Frank Parson was withdrawn. The

trial lasting over an hour, was re-

counsel.

GYROS ELIMINATED

BY COLORED GIANTS

Fast Game of Ball Staged in

Independent Baseball

League Last Night

Failure to maintain the pace they

set in the early innings led to the

downfall of the Gyros at the hands

of the Colored Giants last evening

at the Stadium. The game was one

of the regular "knockouts" in the

Independent Baseball League and re-

sulted in the Giants gaining a place

in the semi-finals. The score last

night was 7-4.

The colored boys did not get a

chance to run around the bases until

the seventh inning. Up to that time

they had been kept in check and

Ellis's twirling had proved too

mystifying for them. Then they

turned on the Gyro moundman and

clouded out enough hits to get four

runs. The Gyros' infield lost its eye-

sight and this helped the Giants to

get across the platter. The Giants

followed up in the eighth by adding

three more runs.

The Gyros scored two runs in the

fourth and attempted a batting rally

in the ninth but it only produced

another pair of counters.

A large crowd of fans turned out

to give the boys encouragement and

the game proved one of the closest and most interesting of the series to date. The rooting of the Colored Giants supporters was a whole show in itself.

The next game in the Independent League will be on Friday evening, when the Garrison play the Motor Accessories.

GOVERNOR-GENERAL SHOWS INTEREST IN MANY SUBJECTS

(Continued from page 1)

The grand circular rally of Scouts and Wolf Cubs had been planned to be executed during the afternoon.

Ten scout troops of the city and eleven Wolf Cub packs, in addition to a number of up-Island units, paraded under District Commissioner G. H. Scarrett at the corner of Port and Pemberton Streets at 2 p.m., marching in column to the grounds. Many of the scouts and officers wore service decorations.

The Chief Scout will give a demonstration lecture to scout officers in private on Thursday. Only the officers in question and staff officers will be present. G. H. Scarrett, District Commissioner, issued limited invitations to-day. The demonstration to the officers will be given at the Collegiate School grounds at 7 p.m. on that day.

Though many up-Island troops could not be represented by reason of the distance from this city, at the ceremony to-day were scouts of the Parkville, Duncan, Metehosin and many other Island units.

The Girl Guides were also on parade, the band of the Boys' Naval Brigade playing selections.

The Governor-General then presented decorations to Brigadier-General Clark and Lt.-Col. Lightbody. The garden party followed later, a function which was attended by many guests.

Engagements to-night include an opportunity to meet ex-service men at Government House at 8:45 o'clock, and later attendance at Venetian night at the Gorge, where the Governor-General is due at 9 o'clock.

PUBLIC TO GET CITY HALL FACTS IN WRITING ONLY

No Verbal to Be Given Out; Telephones Also Barred

All City Hall information concerning tax payments and financial matters must be given out in writing and signed by City Treasury clerks in future, in accordance with instructions issued by Mayor Marchant to-day.

No information on financial or tax matters will be given out on the telephone in future, the Mayor announced to-day. "A great deal of misunderstanding and difficulty has resulted from the practice of giving out information concerning tax charges and similar matters on the telephone," the Mayor said. "Our taxation system, embodying various schemes of paying up old arrears and so on, has become involved and the telephone is a most unsatisfactory way of discussing it."

"In future when anyone wants to secure information concerning tax or other matters under the direction of the Treasury Department will have to accept that information in writing. No verbal information of the character will be given at the City Hall. Forms have been provided for these purposes and must be used in future. In the past these forms have been available but have not been used."

The hearings were remanded until Wednesday next for trial.

Allen Fielding is charged with "operating a disorderly house, to wit a common gaming house," in respect to the Paddle Wheel Game at the B.C. Electric Tramway Park, otherwise known as the Gorge. Richard Oldfield Holt is charged with "operating a disorderly house, to wit a common gaming house," in respect to the Australian Log Rolling Booth at the same premises. Both charges are brought under section 235 subsection E of the Criminal Code. The charges, stated Mr. Harrison were not a rebash of the first cases against the same accused which were recently dismissed, but entirely new charges relating to different dates.

LIBERALS TO GREET HON. J. H. KING

TOUCHING SCENES AT YESTERDAY'S CEREMONY

The above photograph shows the scene following the unveiling of the Cross of Sacrifice in Ross Bay cemetery yesterday. In the background may be seen the standards of the primary Chapters of the Imperial Order, Daughters of the Empire, into whose care the Governor-General yesterday placed the monuments. It is hoped that the monuments will be Victoria's "cenotaph" and that loving hands will keep them replenished with floral tributes from time to time.

BRILLIANT BALL AND DINNER AT GOVERNMENT HOUSE

Vice-regal Party Honored Last Evening: Five Hundred Guests

Government House was in gala attire last evening when His Honor the Lieutenant-Governor and Mrs. Nichol entertained at an official dinner followed by a ball in honor of Their Excellencies the Governor-General and Lady Byng. Deep crimson dahlias were massed in the hall, while asters of pastel hues and other late Summer blooms enhanced the charm of the drawing room where the guests were received. In the ballroom the balconies were draped with flags, and palms and flowers were used in the decoration of the orchestra rostrum and window embrasures.

At the dinner covers were laid for thirty-six at a table beautifully arranged with pale pink and mauve sweet peas. Lady Byng was exquisitely gowned in fuchsia georgette with panels heavily embroidered in gold and finished with gold fringe, and her ornaments included a magnificent tiara of diamond maple leaves, a diamond pendant and sunburst brooch. Mrs. Nichol was in a beautiful toilette of cream and gold, broadened georgette, trimmed with golden tassels, and wore a beautiful rope of pearls. Lady Margaret Ross was strikingly gowned in a handsome creation of silver and grey iridescent beaded georgette.

The dinner guests included the Bishop of Columbia and Mrs. Schofield, the Chief Justice and Mrs. MacDonald, the Premier and Mrs. Oliver, Senator and Mrs. G. H. Barnard, Mayor Marchant and Mrs. Marchant, Brig-General and Mrs. Ross, Lieut. and Mrs. Oland, Hon. John and Mrs. Hart, Hon. Dr. and Mrs. MacLean, Dr. and Mrs. S. F. Tolmie, Col. Nearly five hundred guests attended the ball, which followed the dinner. A delightful absence of informality marked the proceedings, the usual reception being waived. The Governor-General opened the ball with Mrs. Nichol and throughout the evening their Excellencies entered with evident enjoyment into the dancing. Professor Heaton's orchestra furnishing an exceptionally attractive programme of music.

At midnight a delicious supper was served in the dining-room, the special guest table and the main buffet being decorated alike with sweet peas in the pastel shades.

Mrs. Nichol assisting Her Excellency in receiving the delegation.

Lady Byng was deeply interested to learn that the late Miss Marjorie Pickthall had organized the local literary field by the death of this gifted young poetess. Her Excellency chatted with the visitors for about half an hour discussing literary topics and speaking in warmest praise of the beauties of Victoria and the inspiration to be derived from its natural loveliness.

A pretty wedding took place at Knox Presbyterian Church last evening at 8 o'clock when the Rev. Joseph McCoy solemnized the marriage of Helen A. daughter of Mr. and Mrs. James Keen, of 1301 Kudlin Avenue, and Archibald Donald Findlay, son of Mr. Donald Findlay, of Munshelburgh, Scotland. The bride, who looked lovely in a gown of white georgette over satin, with her wedding veil caught beneath a coronet of orange blossoms, was given in marriage by her father, and attended an bridesmaid by Miss Nellie Lightfoot, in a dress of lavender crepe de Chine with white hat, and carried a bouquet of pink and mauve sweet peas. The bride's bouquet was composed of Ophelia roses, white heather and swansonia. The groomsmen were Mr. Jack Wilson, of Seattle. During the ceremony Mrs. Jameson sang very sweetly, "O Promise Me." Friends of the bride had decorated the church with a profusion of Summer blooms and after the service the bridal party repaired to the home of the bride's parents, which was decorated with Autumn foliage, Virginia creepers and amaranth, the work of the bride's friends. "SALADA" TEA

Once tried, is never forsaken
Sealed packets only Black, Green or mixedHELD RECEPTION
FOR LADY BYNGWomen's Canadian Club
Membership Presented at
Delightful Function

The presence in Victoria of Lady Byng was the inspiration of one of the most delightful functions ever held under the auspices of the Women's Canadian Club when yesterday afternoon nearly five hundred members gathered at a reception in honor of Her Excellency. Arranged in the main dining room, the small tea tables with their festive decorations of sweet peas and other summer blossoms lent an attractively social air to the proceedings and the absence of formality at the express request of Lady Byng, made the pleasurable occasion one long to be remembered by the fortunate guests.

Her Excellency, who wore a lovely gown of deep blue with ermine wrap and large black hat, was accompanied by Mrs. Nichol and Lady Margaret Boscowen. Mrs. J. F. C. Hyndman, the president, in a graceful little speech, welcomed Lady Byng to Victoria on behalf of the club and presented her with an honorary membership, while little Rosemary Nasmith presented a lovely basket of asters and Ophelia roses on behalf of the club. A bouquet and message of welcome was also presented by little Evelyn Delahaye on behalf of the Girls' Friendly Society, of which organization Lady Byng is patroness.

In replying to the welcome, Her Excellency voiced her pleasure at the cordial reception which had greeted the vice-regal party in its tour of the Dominion. It was her desire, she said, to be closely associated with the women's organizations during her regime at Ottawa, and she hoped that in the not too distant future she and His Excellency would be able to make a longer stay in "this little paradise, Victoria."

Madame Lugrin-Pahey, with Mrs. A. J. Gibson at the piano, contributed a delightful group of songs, including the aria from "El Porrazo Destino," "The Song of the Robin Woman" (Cadmian) and Hagemann's "At the Well." At the close of the brief programme, Mrs. Pahey and Mrs. Gibson were presented, at her own request, to Lady Byng, who warmly congratulated both artists.

Mr. Lou Turner, whose orchestra rendered musical selections during the afternoon, was also presented to Lady Byng.

At the close of the programme tea was served. At the main guest table were Lady Byng, Mrs. Nichol, Lady Margaret Boscowen, Mrs. Hyndman, Mrs. Margaret Jenkins, Mrs. C. C. Spofford, Mrs. C. W. Roddick, Mrs. Lugrin-Pahey, Mrs. A. J. Gibson, Mrs. H. P. Hodges, Miss Helen Stewart and Miss Margaret Clay. Mrs. W. A. Gallaher and Mrs. J. H. Fletcher of the social committee had charge of the tea arrangements and were assisted in serving by the Misses Beryl Hyndman, Betty Savannah, Margaret A. J. Gibson, Campbell, Betty Gray, Nellie Turner, Ellen Gravelley, Dunbar, Mary Clay, Margaret Sanson, Anna McBride, Leslie Warnock, Miss Perry, Miss Richards and Miss White (Vancouver).

Following the serving of tea the members were presented to Her Excellency.

THE SANDMAN
STORY FOR
TO-NIGHT

A RUNAWAY SUNBEAM.

One morning a Little Sunbeam awoke from her long night's rest and shook out the folds of her yellow dress. "All the world looks beautiful and bright," she said, "but how I wish I might stay out just one night and see how the world looks then."

Down the same shining path I go every day to the garden and play with the flowers; and all this is very pleasant. But, Oh! if I dared to hide away when Father Sun calls for us all to go home then I am sure I would have an adventure, and how I would love to have just one in my life."

And then this Little Sunbeam began to think all the way down the shining path to the garden how she could manage to escape Mr. Sun, and to have a watchful eye and hide herself in the garden.

The more she thought the more she wanted the adventure and when the sun made his way toward the hills, the Little Sunbeam had quite made up her mind to run away from her father.

Crawling slyly and slowly along the garden close to the wall, Little Sunbeam made her way under the

That lazy, listless "DON'T-CARE" FEELING! IT'S YOUR LIVER

Dissolve a pinch of Alkermes-Saltrates in your tea every morning and soon feel fit as a fighting-cock, says

PETER LATHAM

World's Champion at Racquets, 1887-1902
World's Champion at Tennis, 1895-1907
Retired undefeated.

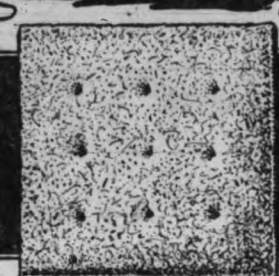

Ever have that lazy, listless, "don't-care" feeling of constant lassitude, when every move requires special effort and even the brain seems tired, drowsy and dull? It's your liver. Ever feel bilious, nervous, irritable, "headachy," and various other kinds of "sachy"? It's your liver. Ever have dull eyes, yellowish eyeballs, pimply skin, catarrh, coated tongue, offensive breath, insomnia, stomach trouble, heart palpitation, loss of appetite, etc., etc.? It's your liver. Constipation has even been called "the beginning of all disease," because it introduces into the blood, by absorption from the intestines, various disease-causing poisons which could not possibly ever remain in the body otherwise. Poisons and impurities, whether you call them toxins, microbes, bacteria, bacilli, uric acid and stomach acids, or by any other name, are admittedly the primary cause of serious organic and other disease. Without their presence in the system the disease could not exist.

Obviously, the only way to get rid of body poisons or blood impurities, and do it quickly, is to stimulate a lazy, sluggish liver, flush clogged kidneys, neutralize and wash the system, and cleanse from an acid stomach and clear the sour bile and decaying matter from the bowels. The entire alimentary tract. Then notice how much better you feel as the body's great filters and blood refiners (the liver and kidneys) commence working properly again.

All you need for the above treatment is simply to get a small supply of the refined Alkermes-Saltrates compound from any chemist. A pinch of this should be dissolved in your tea, coffee, water, or other drink and taken every morning. No trace of any kind, salty, sour or other taste can possibly be detected. Also it cannot upset or irritate even the most delicate stomach. The only evidence that you are taking a medicine will be the plainly noticeable absence of all symptoms indicating disordered liver, kidneys, stomach or other parts of the digestive tract.

A man is never so amusing as when he attempts to lay down laws for the conduct of women.

"Then your wish shall be granted," replied the Garden Fairy. "You shall have a golden adventure, for I will change you into a bush and you shall have bright golden flowers and live in the garden."

Then when the cold days come you can return with Father Sun some night until the summer days come again."

And that is how we happen to have in the garden the Golden Glow, which is found everywhere just as the Sunbeams are found in every place into which they can creep.

KEEPING FAITH FUND.

The Canadian Legion has arranged for two delegates from the Victoria Post to attend the meeting of all the ex-service bodies' representatives to discuss in the rooms of the Great War Veterans' Association, Bastion Street, city, the formation of the "Keeping Faith Fund," to be contributed to by all veterans' organizations.

It is proposed that the money, so raised, will be forwarded to the Dominion Veterans' Alliance to carry on the fight for further re-establishment legislation.

In conformity with the aims and objects for which the Canadian Legion was formed, every effort will be used to bring closer co-operation in ex-service matters with all veterans' bodies, in this city and elsewhere, with a view to amalgamation.

OPINIONS UPON
CHANGES IN
GAME RULES

Permits Will Be Required As Well As Licenses Until Bird Season Is In

Due to a ruling on section 26 of the Game Act, Island sportsmen will have to secure, in addition to the annual license, a permit to carry a gun in any type of vehicle whatever during that period of the season open to deer hunting, closed season for birds. The deer specific of birds occasions the difficulty, in that deer precede birds in the opening season by some days.

A party of local sportsmen took the matter up with Chairman M. B. Jackson, K. C., M. P. P., of the Game Conservation Board to-day, but were told, it is said, that permits would have to be carried. The permits, hundreds of which will be required in this city alone, may be obtained from Game Warden Gidley and are free.

On the whole the regulations are said to be favorable, but severe comment is made of the fact that the dates are much split up, it is alleged, that certain radical changes are made in the disposition of the shooting.

A Reversal.

For instance, it is pointed out that while blue grouse may be shot in North Saanich they are closed in South Saanich. Willow grouse are just the reverse, and yet willow grouse, say sportsmen, are to be round chiefly in North Saanich.

"The advent of the deer season, before that of the birds, will work a hardship on the hunter, it is declared, in that dogs may not be used even for training. Further the fact that deer may be shot and birds are barred will lead to breaking of the law by illicit shooting of game birds."

The closing of that portion of hunting ground to the south of the Esquimalt & Nanaimo Railway grant east of Sooke River and Harbor is occasioning some criticism. This it is alleged was the advocacy of a few farmers of that district, and in effect, added to Saanich, the Highlands and other prohibited areas shuts off some of the best deer sections on the lower part of the Island.

members of the various administrative bodies of the University.

This year the publication of this annual book of courses and regulations for the guidance of students has been greatly delayed owing to the difficulties the authorities have met in deciding where to curtail the work in order to keep within the Government maintenance grant.

The most important changes in the calendar just issued are the dropping of all courses in Spanish and the withdrawing of the Fourth Year in Civil Engineering. Since there is no immediate prospect of the Board of Governors being able to give effect to the request of many business men that a Department of Business and Business Administration be established, it was felt that instruction in Spanish should be discontinued.

DOMINION

There can be no doubt that in the presentation of "While Satan Sleeps," which is now playing at the Dominion Theatre and all this week, that the management is to be complimented for securing such a wonderful attraction. Hundreds of people have already witnessed this picture, and all have stated that it is surely worthy of being called "The Spectacle of the Season," for, although there is nothing spectacular about the story, the wonderful blending of comedy and pathos and red-blooded action of Peter B. Kyne's great novel, "The Parson of Panamint," from which the film version under the title of "While Satan Sleeps" was taken, holds a place of its own in the halls of motion picture successes. Those who have already read the original novel in The Saturday Evening Post need not be told the story, but for those that have not had the pleasure of reading the novel, suffice to say that Jack Holt's characterization of the Gunman Preacher in the town of Panamint is positively electrifying. The supporting cast is excellent. The credit for the magnificent photography goes to Faxon M. Dean. Joseph Henabery directed the production.

Natalie Lane was one of the most popular artists models in New York because of her wistfully pretty face. The greatest artists were constantly tugging for her services, but most of her posing was done in the studio of J. P. Travers, whose consuming ambition was to "make" the Paris salon. Travers' particular weakness was pretty women, but although he tried to make love to Natalie, she constantly repulsed him. She had an older suitor, equally as persistent, in "Ruddy" Warren, the son of the millionaire steel magnate. No matter where Natalie went, there she found Ruddy, waiting for her with his car. And each time Ruddy would seize the opportunity to propose. Time after time Natalie said "No," but this did not discourage the youth. It was not until he had promised to give up his idle habits and really do something worth while that Natalie gave her consent. Ruddy's father was in Europe when the marriage took place, but he hurried back, and threatened to cut off Ruddy without a cent if he did not give up his wife, who, the elder declared, was below his station in life. But Ruddy refused pluckily. Without any income, he and his wife had to move into a cheap boarding house, where Ruddy attempted to make his living by writing plays.

CAPITOL

Bayard Veiller, stage producer and playwright, has produced one of his own original stories for Metro. It is "Sherlock Brown" and it affords Bert Lyell one of the best roles that he has ever played. It is now showing at the Capitol Theatre.

Incidentally, two of the players who enacted important roles in Mr. Veiller's stage success, "The Thirteenth Chair" and "Within the Law," are in cast for this screen drama.

De Witt Jennings, the iron-jawed police inspector of both of the stage productions mentioned, is seen in a similar role in the Lyell picture. The leading woman is Sylvia Breame, star of numerous screen successes, who played the leading feminine role in Mr. Veiller's "Within the Law," when it was produced in Australia. Miss Breame's birthplace.

It was not until after Miss Breame had been selected for a part in a Bert Lyell picture, "The Phantom Bride," that Mr. Veiller, who directed it, was told that she had been in the cast of his stage play. Miss Breame, learning that the producer-playwright was directing for Metro, applied for the part and was immediately accepted.

In "Sherlock Brown" Lyell appears as a young clerk with an overwhelming desire to become a detective. He obtains a badge from a distant detective agency, and begins his career as a sleuth. Through an unusual train of circumstances, he is involved in a mystery of vital importance to the government. When the regular officials scoff at his clue, he decides to pursue it anyway, and is successful in running down an unsuspected individual.

This characterization gives Lyell a role different from those he has frequently played, for instead of being the pursued, he is seen as the pursuer. He is seen as "Sherlock Brown" is one of the best of this actor's long career.

Supporting Lyell in the cast are, in addition to De Witt Jennings and Sylvia Breame, Ora Carew, Theodore Von Eltz, Wilton Taylor, Hardee Kirkland, George Barnum and George Kuwa.

THE PLAYHOUSE

To-night Mr. Reginald Hincks will present his talented company in Playhouse Show number two which will prove to be one of the most attractive entertainments ever staged in the city. Special scenery has been painted for this performance by Stewart G. Clark, which will add greatly to the effectiveness of the performance. The major part of the bill is devoted to the potted opera "A Country Girl" in which the leading characters are: Miss Marie McLaughlin, Mrs. Catharine McDonagh, Miss Peggy Lewis, and Messrs. Ernie Petch, Frank Arundel and Bob Webb. This is a particularly bright and tuneful opera in which the adventures of a British naval officer and his servant, together with those of an Indian Rajah and his daughter are recounted by cleverly put together dialogue and delightful songs. Advance sale seats have been going rapidly. Reservations may be made at the box office after ten a. m. every day.

Just now, the stores are calling you. They are alluring. All the merchants want to "turn over" stock and are making some wonderful offers in the advertisements.

IF WINTER COMES

by A. S. M. HUTCHINSON
INSTALMENT NO. 40

Copyrighted—Published by arrangement with British & Colonial Press, Ltd.

Down the steep hill flanked by master's house. Twilight merging now into darkness. Boys passing in and out of the gateways. Past Teller's which had been his own house. All this youth was preparing for life: all these houses eternally, generation after generation, pouring boys out into life as at Shotley iron foundry he had seen molten metal poured out of a cauldron. And every boy, poured out, imagined he was going to live his own life. O hapless delusion! Lo, as the same moulds awaited and confined the metal, so the same moulds awaited and confined the living stuff. Mysterious conventions, laws, labor, imperceptibly receiving, implacably binding and shaping. The last day he had come down the steps of Teller's—jumped down—how distinctly he remembered it! It was his own life he was coming down, eagerly jumping down, into. Well, here he was, passing those very steps, and whose life was he living? Mabel's? And to what end?

Whose life was Nona living? He had asked her, "Tell me about you and Tybar."

With pitiable gentleness of voice she had approached that quantity which had been missing from her first statement of her position. And she had done tribute to her husband's parts with generosity, nay with pride. Tony does everything better than any one else. She had said it on that occasion of their first re-encounter; its burthen had been the opening of her recital of what else she had for him.

"Marko, I think Tony's the most wonderful person that ever was. He does everything that men do and he does everything best. And everybody admires him and everybody likes him. You've no idea. You've no idea how he wins everybody he meets. People will do anything for him. They love him. Well, you've only got to look at him, haven't you? Or hear him talk? I think there's never been any one so utterly captivating as Tony is to look at and to hear."

Most engagingly, with such words, she had presented him; one that passed through life airily, exultantly, much fairy-gifted at his cradle with gifts of beauty, charm, pre-eminence in all he touched; knowing no care, knowing no difficulty, knowing no obstacle, or danger, or fear, or illness, or fatigue, or anything in life but gladness, shining things, which touching, he made more bright, more tuneful yet, meeting no one, of whatever age or degree, but his charm was to that age or degree exactly touched; captivating all, leading all, by all desired in leadership, Fortune's darling!

"And, Marko," she at last had come to. "And Marko—this is the word—graceless. Utterly, utterly graceless. Without heart, Marko, without conscience, without morals, without principle. Marko, that's an awful, an abominable thing for a wife to say of her husband. But he wouldn't mind a bit my telling you. Not a bit. He'd love it. He'd laugh. He'd utterly love to know he had stung me so much. And he'd utterly love to know he'd driven me to tell you. He'd think—'he'd love like anything to drive me to do awful things. He's tried—especially these two years. He'd love to be able to point a finger at me and laugh and say, 'Ah! Ha! Ha! Ah! You know, he hasn't got any feelings at all—love or hate or anything else; and it simply amuses him beyond anything to arouse feeling in anybody else. There have been women all the time we've been married and he simply amuses himself with them until he's tired of them, and until the next one takes his fancy, and he does it quite openly before me, in my house, and tells me what I can't see before my own eyes just for the love of seeing the suffering it gives me. You saw that Mrs. Winifred. He's done with her now. And he's as shameless about me with them as he is about them with me. And what he loves above all is the way I take it; and I can take it in no other way. You see I won't simply tell you. Marko, let these women of his see—or let any one in the world suspect—that I—that I suffer. So when we are together before people I keep up the gay way we always show together. He loves it; it's delicious to him, because it's a game played over the torture underneath. And I won't do any other way, Marko. I will keep my face

costed him. He was astounded, as if suddenly awakened out of a heavy sleep, to see to where he had come. He was in the narrow old ways of Tidborough Old Town, approaching The Precincts, by the ancient Corn Exchange. A keen-looking young man, particularly well set up and wearing nice tweeds, was accosting him. Sabre recognized Otway, captain and adjutant of the depot, up at the barracks of the county regiment, one of the crack regiments, famous as "The Pinks."

Otway said, "Hullo, Sabre. How goes it? Are you going to this show to-morrow?" He was pointing with his stick to a poster displayed against the Corn Exchange. Sabre read it. It announced that Field-Marshal Lord Roberts was speaking there, under the auspices of the National Service League, on Home Defence—a Citizen Army.

"I hadn't thought about going," Sabre said. He wanted to get away. Otway was staring at the poster as though he had never seen it before; but he had been staring at it when Sabre came along the street. "You ought to," Otway said. "You ought to hear old Bobs. Of course the little chap's all wrong."

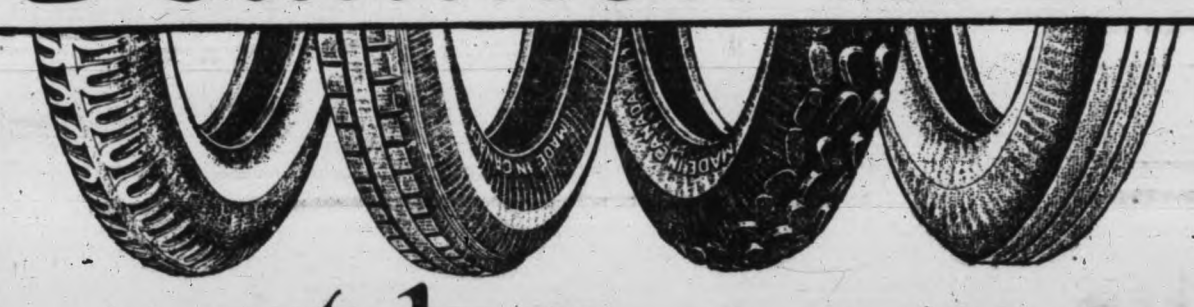

He seemed to be talking to himself, staring at the poster, more than to Sabre. Sabre, despite his preoccupation, was surprised. "All wrong? Good lord, I should have thought you of all people—"

And immediately a torrent of Otway was let loose upon him, bursting into his thoughts

like a stone checked through a study window. Otway spun around in his keen, quick way to face him. "All wrong in the way he's putting his case, I mean. All these National Service chaps are. Home defence they talk about, nothing but Home Defence. It's like chucking sawdust into a fire—the fire being all the bloody fools who are opposed to military training. Any fool can knock the bottom out of this Home Defence business. The Blue Water fools are champions at it. They say the only defence against invasion is the Navy and that half a million spent on the Navy is worth untold millions chucked away on this 'Nation in Arms' shout. And they're damn right."

BAKER'S COCOA

is a most satisfying drink.

Delicious flavor and aroma, beautifully attractive color, purity high quality;—the distinguishing characteristics of high-grade cocoa,—"Baker's."

The heads of the naval and military medical departments in England have been so impressed with the wholesomeness and superior nutriment of cocoa, that they have judiciously directed that it shall be served out twice or thrice a week to regiments of the line, and daily to the seamen on board H. M. ships. Medical men unquestionably admit that cocoa is nutritious.

IN TRAIN WRECK ON WAY HERE

W. S. Booth in Bad Accident on Soo Line August 12

W. S. Booth, of Chicago, long identified with the Chicago Board of Trade, arrived in the city yesterday and will be at the Empress Hotel for a few days. Mr. Booth was in the serious train wreck at Annandale, 64 miles west of Minneapolis, on the evening of August 12, when the westbound express, No. 107, on the Minneapolis, St. Paul & Sault Ste. Marie Railway, crashed into a light truck loaded with oil. Both the occupants of the truck, Lamar and Thompson, were killed. Unfortunately, however, a freight train was standing on the side track adjoining at the time, and the passenger train of fifteen cars plunged into it.

No. 107 struck the truck squarely and hurled it against the freight engine on the side track. A switch stand was knocked down and three coaches of the passenger swung over to the side track into the freight train. The baggage car crashed over the overturned freight engine. Several other passenger cars were derailed.

Toppled Over.

Most of those killed and injured were in the smoker, which reared up into the air and toppled over. Part of the wreckage caught fire, but the blaze was soon extinguished. To this fact many persons owed their lives, for it was several hours before the injured had all been removed.

Many Killed and Injured.

About fifteen persons were killed in the wreck or died immediately afterwards, and thirty-five persons were seriously injured. Mr. Booth was in the observation car, but escaped owing to the car being at the rear of the train. He describes the confusion which existed, and says it was one of the worst experiences he has had in travelling during many years of railway travel. Westbound passengers were transferred, and so he continued his journey to the Canadian Rocky Mountain resorts, where he has been for a few days.

Mr. Booth lost his baggage in the wreck, and is still handicapped in travel thereby. He is glad to renew acquaintances with old friends, and to observe the development since his last visit.

GREENHOUSE INSECTS

Advice by Entomological Experts As to Their Control.

"It has been estimated that if all the progeny of a single rose aphid were to survive, they would at the end of the three hundred days be equal in weight to the population of China sevenfold," which means that there would be in weight of this one small insect several thousand millions. The bulletin from which this quotation is taken treats of "Insects Affecting Greenhouse Plants." The estimated value of crops grown annually in greenhouses in Canada is upwards of three millions of dollars, and that of the area under glass covers about six million square feet of space. It will therefore be admitted that the importance of the industry warrants a study of the insects preying upon greenhouse plants, and of the means whereby they can be kept under control. Remedies of a simple kind are suggested in the bulletin, and the methods of their employment are described. Hydrocyanic-acid gas fumigation can be utilized to control such insects as white fly, plant lice and thrips. The habits and characteristics of every known greenhouse insect are described in the text, which is well illustrated. The insects are divided into three classes, namely: leaf eating insects, of which fourteen are dealt with; sucking insects, of which there are seven, and boring or root-eating insects, of which there are also seven. In addition, the history is given of ten animal pests, such as spiders, slugs, mites of various kinds, earthworms, etc., and of their predaceous enemies and internal parasites, which come under the head of "Natural Control."

CHIROPRACTORS IN VANCOUVER COURT RESERVE DEFENCE

Number of Cases Remanded in Police Court to Conclude Monday Next

In the light of similar prosecutions brought locally, the opening of the trial of nine chiropractors in Vancouver yesterday is of interest. The cases were opened before Magistrate Shaw, evidence for the prosecution being submitted, but that for the defence reserved.

The accused were charged with practising medicine for hire, not being registered under the Medical Act. Drs. W. Sturdy, R. L. Fehr, R. L. Burrell, Elmo Marshall, J. Lee Rice, D. Jamieson, M. M. Heard, H. B. Leach and Susan Shaw completed the list of accused, nearly half of whom are women practitioners.

J. W. de B. Farris, K. C., appeared for the prosecution with Ian McKenzie, M. P. P., for the defence. Dr. A. P. Procter, registrar of the College of Physicians and Surgeons for B. C., stated in evidence that the medical profession had not undertaken the prosecution, but placed the matter in the hands of the police. In June, 1921, examinations for chiropractors and drugless healers were advertised in the Press, but no entrants were received.

Chief witness for the prosecution, George Grimes, told of an extended series of visits to Vancouver chiropractors and the treatment he received for recurrent sciatica. This witness occasioned some merriment in court by stating that at least one of the accused "treated him kindly," this being Dr. Heard a lady who told him to "rest on a couch for a while," after undergoing her treatment.

Witness ran into a snag at the office of Dr. Leach, another lady practitioner, when undergoing treatment he said, and a second chiropractor called and recognized him as a patient a few days before. The treatment under way came to an abrupt close, alleged witness. At the conclusion of evidence for the prosecution the joint hearings were remanded until Monday next.

Corns Go Blue-jay

to your druggist
